BLACK PEPPER

Black pepper is picked when the fruit is still not too mature. Then the pepper fruit will be boiled to solve his skin. After being boiled, pepper will be dried by driving in the sun for a few days. This drying process also makes this pepper.

WHITE PEPPER

white pepper, the fruit is picked in a mature state. Then, the pepper fruit will be boiled to facilitate his skin apart from the fill of the fruit. Pepper skin is then discarded and leaving only the content of the white fruit. The white piece of the pepper is then will be processed into white pepper.

SPICES ORIGIN FROM INDONESIA

● BLACK PEPPER Quality II

We are ready to supply with this kind of quality. Peppers are still mixed with branches and leaves, dry quality and very warm scent

● BLACK PEPPER QUALITY I

Pepper with good quality, already sorted and separated from branches, leaves, with good dryness. a special warm and clean aroma

● BEST QUALITY

This pepper is already sorted and cleaned and selected by the best quality. the color is more intense and clean as well as a typical scent

● WHITE PEPPER

White pepper has a softer taste than black pepper. due to the longer soaking and washing process.

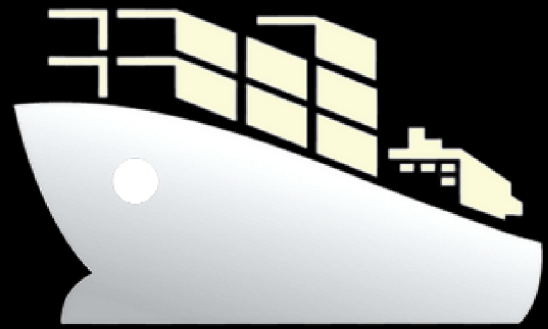

● BEST QUALITY

taken from the fruit that is mature and processed, soaked with salt water to be separated from the skin makes this quality much more complicated, but the sense of more soft and makes the dishes more savory
